

Experience the quality of your samples

with new course microscopes from Carl Zeiss

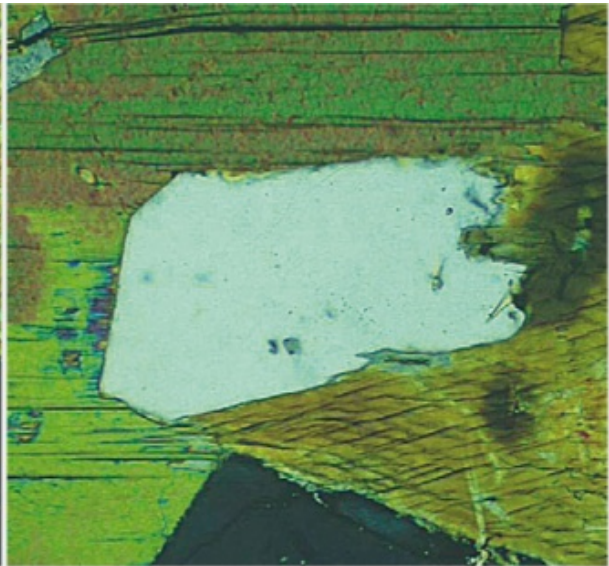

At IMA 2010 you will have the unique opportunity to have a closer look on your samples, analyze them with the new **Axio Lab.A1 upright polarization microscope** from Carl Zeiss and furthermore discuss them with your international colleagues. The Axio Lab.A1 offers an impressive range of options. This, together with the ZEISS quality promise, guarantees efficient working at the highest level.

See for yourself and bring your own samples!
